

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211\CP1

All GE foods should be labeled so I am informed and have a choice.

GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing

There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.

Commissioner Jane Henney
Docket No. 00P-1211\CP1:27
FDA Dockets Management Branch
(HFA-305)
5630 Fishers Lane, Room 1061
Rockville MD 20852

(Additional Personal Comments):

I also wish to register against the use of chemicals to deactify seed with the chemical that allows it to grow, and the inclusion of Starbuck's wheat in the universe to seed resist
