Jane Henney, M.D.
Commissioner of Food & Drug Administration
5600 Fishers Lane, Room 1471
Rockwell, MD 20857

Dear Dr. Henney,

I urge you to do everything possible to ban the use in animals of growth promoting hormones or antibiotics that have a role in human medicine. We should follow the lead of our European counterparts to protect the health of American citizens.

Sincerely Yours,

Reginald S. Lowe, Jr., M.D.
RSL/da
