Re: Quantity of agricultural antibiotic use

Dear Commissioner Henney:

According to the Union of Concerned Scientists, there are few numbers available on the amount of antibiotic use in agriculture. Since their overuse in livestock industry is considered dangerous to their continued effectiveness, it would seem prudent to collect the necessary data.

We urge you to establish a system for doing this. Also, we urge the prohibition of the use of these wonderful drugs to enhance animal growth.

Sincerely, *Maloney*

The Great Invocation

From the point of Light
within the Mind of God
Let light stream forth into
the minds of men.
Let Light descend on Earth.

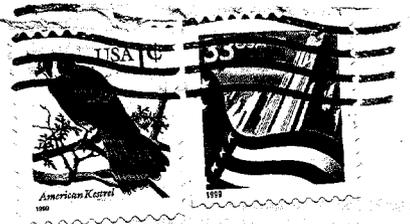

From the point of Love
within the Heart of God
Let love stream forth into
the hearts of men.
May Christ return to Earth.

From the centre where the
Will of God is known
Let purpose guide the little
wills of men —
The purpose which the
Masters know and
serve.

From the centre which we
call the race of men
Let the Plan of Love and
Light work out.
And may it seal the door
where evil dwells.

Let Light and Love and
Power restore the Plan
on Earth.
