

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket #00P-1211/CP1

20¢  
stamp  
please

All GE Foods should be labeled so I am informed and have a choice.

GE Foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing

There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.

Sometimes I get sick 4-5 times a night  
(Additional Personal Comments:) and then I can't sleep or I have  
to be going to the bathroom too many times. I think that  
is because of aspartame or MSG in it. Will you please  
stop putting aspartame and MSG to candies and sodas.
