

Dear Dr. Henney,

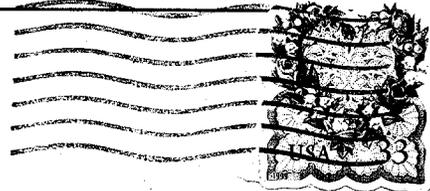

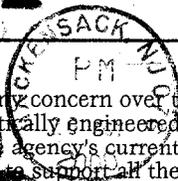

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket #00P-1211/CP1

- All GE Foods should be labeled so I am informed and have a choice.
- GE Foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing
- There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.

Commissioner Jane Henney  
 Docket No. 00P-1211/CP1  
 FDA Dockets Management Branch  
 (HFA-305)

(Additional Personal Comments:) *I would like to say "stop genetically engineered foods now and forever" but the best I can hope for is clear honest labels*
