Take the CarboLean™ Quiz:

- Do you normally have a problem losing weight?
- Is your low-carb diet becoming harder to follow?
- Do you crave carbs more and more each day?
- Have you experienced annoying mid-afternoon fatigue since beginning your low-carb diet?
- Did your low-carb diet stop working after the first nine days?
- Are you still waiting to be one of those low-carb diet success stories?

▶ If you answered "yes" to any one of these questions, purchase CarboLean™ today! CarboLean™, the quickest way to low-carb diet success.

STUDY PROVES: "Stimulant-Free" Rapid, Low-Carb Weight Loss*

CarboLean's™ active (ephedra and stimulant-free) formula has been clinically proven to produce significant loss of excess body weight and body fat.* The full report of this clinical study has been peer-reviewed and published in the medical journal *Current Therapeutic Research* (60; 4; April 1999).

Rapid Weight Loss plus Exclusive Broad-Spectrum Blood Sugar Stabilizer*

But that's not all. In addition to its proprietary (patent-pending), clinically-proven base formulation, CarboLean™ possesses an exclusive Glycemic Complex -- an exotic blend of natural compounds (no, not just Chromium) -- that acts as a "Broad Spectrum Blood Sugar Stabilizer."** This exclusive stabilizer flattens insulin spiking to retard fat storage, maintain energy levels, and spare loss of important lean muscle mass.*

What does CarboLean™ mean for you? Simply this: if you're on a low-carb diet, you need CarboLean™. CarboLean™ optimizes the body's ability to reduce stored body fat, making any low-carb diet work better.* And that's guaranteed or it costs you absolutely nothing.

Note: Of course, if you're not sensitive to ephedra, caffeine or acetylsalicylic acid (aspirin), then use our regular ECA-based CarboLean™ formula with prostaglandin inhibitor. Our ECA-based CarboLean™ formula still remains America's #1 (most powerful) no diet, no exercise, low-carb diet accelerator.*
