U.S. Food and Drug Administration,

I am writing in reference to Docket #98P-0151/CPI . Please let me know if there is any way I can help you have this petition granted . These living and feeling animal beings are either too weak scared or sick to stand and should be treated humanely, not dragged by a chain and tractor and thrown on to a dead pile. Please do what you can to ensure this situation ends and put the humane back into human being. I hope that by eventually passing this into law it will provide an incentive to the farm animal industry to provide better care for all animals,

With Great Faith in You,

Edward Castellano
