Re: docket # 98P-0151-CP1

To Whom it May Concern (all of us),

For many years I have been aware of the horrific and inexcusable treatment that "downed" animals endure at the hands of livestock personnel and slaughterhouse workers.

Having seen a video documenting the plight of "downed" animals, I am writing to emphatically and earnestly request that immediate and definitive action be taken by the FDA to help alleviate the suffering of millions of animals by prohibiting the slaughter of downed animals.

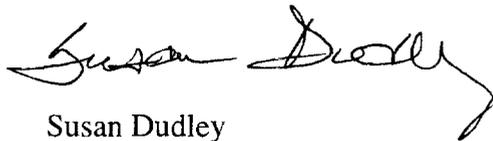

Further, I am asking that the FDA write a specific and clear directive that allows for the euthanasia of any downed animal within one hour.

I would appreciate your response on this matter. You may contact me at:

Or by email, at [remmell1@bcpl.net](mailto:remmell1@bcpl.net)

Thank you for your prompt attention to this matter.

Sincerely,

  
Susan Dudley
