Re: Docket Number 98P-0151/CP1

Dear Sir or Madam:

As a taxpayer and a citizen I demand that the Food and Drug Administration prohibit the slaughter of non-ambulatory "downed" animals.

The reason for my demand is because time and time again I have read about how slaughter houses stack these innocent sick or injured creatures in a heap and leave them to die slowly without any medical or other care whatsoever like they are just a pile of garbage. Well, it makes me sick that a civilized society can allow such atrocity.

So, I would like to have my tax dollars used to have the FDA pass and enforce a regulation stopping this barbaric practice.

Thank you in advance for your consideration of this matter.

Sincerely yours,

Lewis E. Neiman
