Regarding Docket No. 00N-1396 & Docket No. 00D-1598

FDA Commissioner, Dockets Management Branch (HFA-305) 131 '02 FEB 14 AIO:41
Food and Drug Administration
5630 Fishers Lane, Room 1061
Rockville, MD 20852

To all this may concern:

Please listen to what hundreds of thousands people are saying!

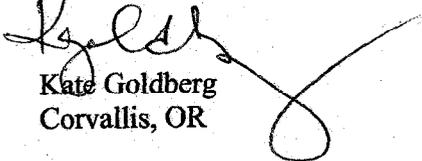

The FDA must Require mandatory pre-market safety testing: GE foods could be toxic, could cause allergic responses, could have lower nutritional value, and could compromise immune responses in consumers!

FDA must Require mandatory pre-market environmental review: GE crops and foods could cause irreparable damage to the environment!

FDA must Require mandatory labeling of GE foods: Without mandatory labeling, neither consumers nor health professionals will know if an allergic or toxic reaction was the result of a genetically engineered food. Consumers will also be deprived of the critical knowledge they need to hold food producers liable should any of these novel foods prove hazardous!

I do trust all comments will be taken seriously!

Concerned regards,

Kate Goldberg
Corvallis, OR
