RE: PETITION DOCKET
00P-1602/CP1
DATED, 11/6/00

Commissioner Jane E. Henny, MD
U.S. Food and Drug Administration
5600 Fischers Lane
Rockville, Maryland 20857

Dear Commissioner-Dr. Henny:

I am writing to you to withdraw all unapproved children's oral fluoride supplements from the marketplace. And to remove all unapproved fluoride supplements intended for ingestion for the purpose of reducing the incidence of tooth decay, for the following reasons.

The more recent studies of the fluoride ingestion preventative have been proven to be not true.

The entire population of a city of over one million people, should not be forced on medication that MAY help a minority of children to abate juvenile tooth decay. Even with fluoride supplements (Hydrofluoric acids in the drinking water supply) without diet, hygiene and genetics as a preventative factor, the fluoride will be of little value.

Persons who are allergic, suffer from kidney ailments, diabetes and some elderly will be subjected to ingestion of this medication? Element? With no recourse except investment of a great sum of monies. Those who can least afford the costs.

Too much misinformation (as to the type fluoride) that will be used and subjection of the populace to a substance that the US Government will not accept in a public landfill but must be placed in a Type 1 hazard waste fill.

Fluoride Letter to Dr. Henny

Dr. Henny, This is entirely too HIGH A PRICE TO PAY to bail the manufacturers of *fertilizers and *aluminum from the high costs to dispose of this highly corrosive toxic waste.

Thank you for your time and consideration given to this matter, and I remain,

Yours truly,

Helen Dutmer

Former City Council Member 14 1/2 years City of San Antonio, Texas
Former County Commissioner, Ret. 6 1/2 years Bexar, County

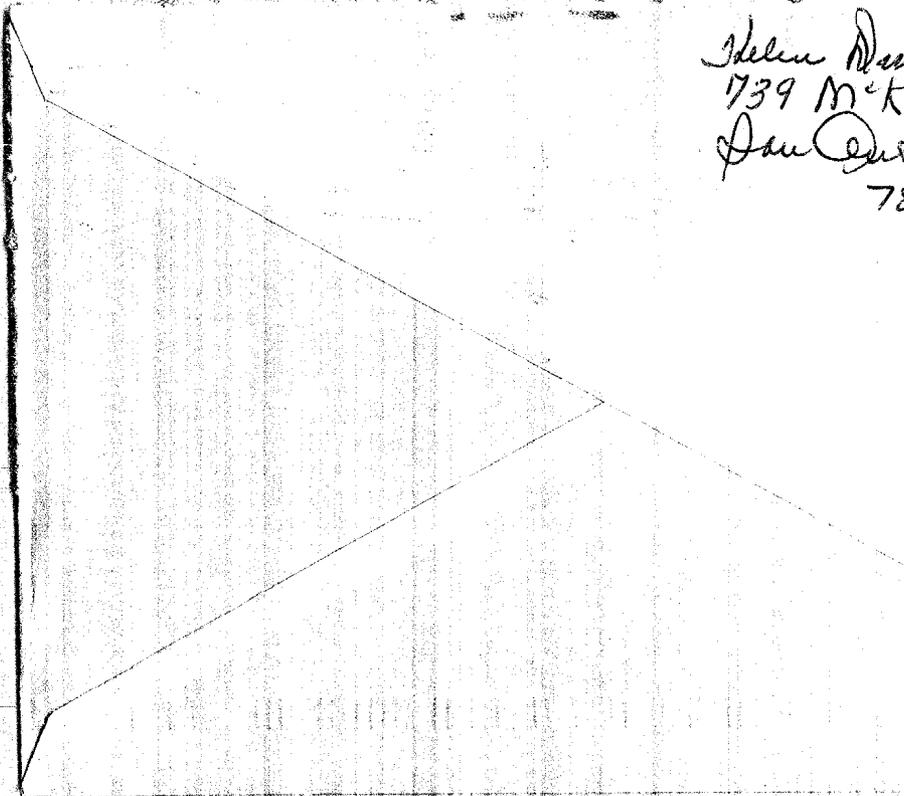

*Others who produce this toxic waste in their manufacturing process.

Cc: Assemblyman John Kelly, New Jersey, USA
