Dear Dr. Henney:

I am writing you to request a ban on the use of all human antibiotics in animal feed.

The reason for my request is that by the non-essential and indiscriminate use of antibiotics in agriculture there is a distinct possibility that the antibiotic will not be effective when used to treat humans.

I am a member of the Wheaton Franciscans with headquarters in Illinois and many of them also support my request.

I trust you to do all you can to bring about action in this matter. Thank you.

Sincerely,

Sister Marie Diebold
