Commissioner Henney
Food and Drug Administration
5630 Fisher's Lane
Room 1061
Rockville, MD 20852

Dear Dr. Henney,

Antibiotic resistance in human pathogenic bacteria is becoming an urgent issue that must be addressed. The FDA's mandate is to protect the public, not the profits of the pharmaceutical and meat industries. A ban on the use of antibiotics in animal feed is needed immediately.

Sincerely,

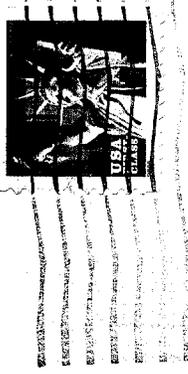

Dr. G. P. Bertoni
