RE: Notification of Nutritional Support Statements

Dear Sir or Madam:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Joint Response™ a dietary supplement. Source Naturals® is the manufacturer of Joint Response™.

Statements being made in the labeling of Joint Response™:

- (1) Promotes joint flexibility.
- (2) Source Naturals Joint Response™ provides three of the most important building blocks for joints and connective tissues-MSM (dietary sulfur), glucosamine and vitamin C. These nutrients help to lubricate and ease joint movement. Molybdenum is added to this formula, to aid in preventing molybdenum loss in the body due to increased organic sulfur intake. Joint Response provides the same amount of MSM and glucosamine shown in recent scientific research to support healthy joint function.

To the best of my knowledge, and based upon information and belief present at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals possesses substantiation that the statements are truthful and not misleading.

Ira L. Goldberg
President, Source Naturals, Inc.
