

TO: FDA-Commissioner Jane Henney  
RE: Docket No. 00P-1211/CP1

As a concerned citizen, I urge the *FDA* to require the labeling and pre-market safety testing of genetically engineered foods. We have an absolute right to know what is in the food that we are purchasing, as well as how it was produced.

In the year 2000, Greenpeace joined with the Center for Food Safety in a petition demanding the development of a thorough pre-market and environmental testing regime for genetically engineered foods and mandatory labeling of such foods. I am writing for submission to the official rulemaking docket (#00P-1211/CP1) in support of that action.

Please take action to ensure that our health and environment are not put at risk.

Sincerely,

Arlene Nash (Jane Henney)
