

Dear FDA,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket # OOP-121 1/CPI, specifically:

- All GE foods should be labeled so I am informed and have a choice.
- GE foods' should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.
- There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment.

GE Food Moratorium

Additional Personal Comments:

The above points are very important to me, our children & our planet. Please let me know if I can help this cause.
