

Dear Dr. Henney,
I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211\CP1

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing
- There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.

Commissioner Jane Henney
Docket No. 00P-1211\CP1
FDA Dockets Management Branch
(HFA-305)
5630 Fishers Lane, Room 1061
Rockville MD 20852

(Additional Personal Comments:) *I am not so naive, in this world of agribusiness and increasingly monopolistic control of all goods and services, to think that consumer needs will ever take precedence over the desires of business, but surely I at least have a right to know*
