Hearing Clerk
Food and Drug Administration - room 6-86
5600 Fishers Lane
Rockville, Maryland 20852

To Whom It May Concern:

In view of the fact that scientific data shows that vinyl chloride has been linked to liver cancer and that when used as an ingredient in cosmetic aerosol products is not safe I support the Commission's intent to have all cosmetic and drug aerosol products containing vinyl chloride be recalled.

Vinyl chloride should immediately be prohibited as an ingredient in future production of cosmetic products.

Sincerely,

Shelley Turian
