RE: Notification of Nutritional Support Statements

Dear Sir or Madam:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Horny goat weed 1000 mg, a dietary supplement. Source Naturals® is the manufacturer of Horny goat weed 1000 mg.

Statements being made in the labeling of Horny goat weed 1000 mg:

- (1) Horny goat weed (epimedium) is traditionally used in China to support healthy sexual activity.
- (2) In vitro animal studies suggest icariin (a constituent of epimedium) may enhance testosterone production. Further research is needed to determine its effects, if any, in humans.

To the best of my knowledge, and based upon information and belief present at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals possesses substantiation that the statements are truthful and not misleading.

Ira L. Goldberg
President, Source Naturals®
