(1) Name and address of manufacturer:

Evening Primrose oil nourishes and soothes dry skin.

Evening Primrose oil is full of omega 6 fatty acids – these are essential fatty acids the body does not produce on its own. Drawn from the herb of the same name, the omega 6 acids in evening primrose oil (like linoleic acid) help to nourish and soothe dry skin and maintain skin moisture and tone for a more youthful appearance. Additionally, evening primrose oil may help in cell growth and in producing certain hormones.

(3) Name of the dietary ingredient(s) if not provided in the text of the statement:  
Evening Primrose Oil (seed)
