Dear Ms. Hiner--

I am a women who uses natural hormones peri-menopausally. Being able to mail order these is extremely helpful. I can get better pricing and more precise formulations through the mail.

These products make a huge difference in the quality of my life; I get immobilized by depression during part of my cycle. Also, as a member of a family with a history of breast cancer, I am a questionable candidate for HRT.

Please don't make it impossible for me to get the prescriptions I need at a reasonable price. Many thanks, Nancy Peden
