Rockville, MD 20857

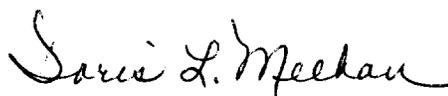

To Whom It May Concern:

I oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the restriction of availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines. Not all states have formulary pharmacies, and people living in states which do not have them should have the right to obtain these medications with equal ease to those who live near them.

I urge you to defeat this proposal by the FDA to limit the choice of medications for people who must have specially compounded medications shipped to them.

Thank you for your consideration of my opinion.

Sincerely,

Doris L. Meehan
