I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I switched to compounded hormone replacement therapy because I wanted to use all-natural hormones instead of the synthetic Premarin. (I object to the methods used by large pharmaceutical companies to obtain the pregnant mare's urine in its manufacture.) I have also found that my symptoms of severe headaches and depression have been improved greatly since starting the compounded medication. The dosage has been adjusted safely & carefully to meet my needs. I very much wish to continue my current hormone replacement therapy management!
