F.D.A. Docket # 98N-1265

To whom it may concern, I am against the Draft memorandum that is being proposed by the F.D.A. I don't like the definition of "inordinate amount" which restricts the availability and the right to get medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

6749739 MSP-6140P137

Thank you for considering this.

*Sincerely yours.*
