Re: Docket No. 02N-0276, Section 305 (Registration)

To Whom It May Concern,

I am writing on behalf of a cold storage company that also leases space to three different seafood processing entities within its facility. As we read the regulation on registration of a facility, we of course would be required to register. Our question concerns the three tenants. Is each one required to separately register or are they included when the landlord itself registers? We would oppose joint registration, as each entity is an individual concern connected only by the landlord/tenant relationship.

Sincerely,

A handwritten signature in black ink that reads "Jonathan S. McGraw". The signature is written in a cursive style with a large initial "J".
