Laboratory Testing Methods

Laboratory testing for purposes of this petition was performed by Silliker Laboratory, 1304 Halsted Street, Chicago Heights, IL 60411, in accordance with good laboratory practices, as set forth in 21 C.F.R. Part 58. The Carbolite® “zero sugar” and “reduced sugar” foods and the reference food were tested for sugar content using high performance liquid chromatography (HPLC) in accordance with AOAC Official Method of Analysis 980.13.
