

In reference to Docket 2005)-0411, I FIRMLY DISAGREE WITH THE WYETH'S CLAIM.

I am a 55 year old female currently on HRT and prefer to obtain my hormone through my local compounding pharmacy. This is my AMERICAN RIGHT and I simply do not want to have another right taken away from me just for the profit of another corporation. I live in Houston, Texas and I am SICK AND TIRED of corporate America abusing the public for the sake of profit, i.e. ENRON!!!!!!

I am a stockholder in several corporations and have worked for corporations my entire career. I've seen good and I've seen bad and lately, there has been mostly BAD. Wyeth's claim is just another attempt to control the actions of people practicing free enterprise for the sake of their personal profits.

DO NOT TAKE AWAY MY RIGHT TO CHOOSE!!! This is not a communist or socialistic country, but we are heading that direction and I hate to see it happening.

Thank you listening,

Sandy Broussard
