TO: FDA, 5630 Fishers Lane, rm 1061, Rockville, MD 20852

RE: The FDA is about to pass into regulation; docket # 200D-0480 the content is basically the following:

On April 30, 2007 the FDA will close the public comment period on a "Guidance" which will classify every alternative practice as medicine so that only licensed physicians can carry out the procedure AND despense of vitamins, minerals, herbs, etc., they will suddenly become "untested drugs" which will be forbidden. Myself and my company want the FDA to cease and desist this movement toward CODEX regulations. This is Bad Policy! Public outcry and the letters to our senators will stop this assault on our health and our freedom of choice. We are spreading the word on our radio program and to our clients, nation wide! WE are telling everyone in our Circle of Influence, media professionals and other professionals, alternative practitioners, nutrient and herb companies, everyone! We are letting them know how important their participation is-- to make sure the FDA backs off--- from this repressive course. We have shared this link with them and urged them to take action now in writing to the FDA and to go to the actual website to register their complaint and it is: http://www.accessdata.fda.gov/scripts/oc/dockets/comments/getDocketInfo.cfm?EC_DOCUMENT_ID=1451&SORT=&MAXROWS=15 &START=121&CID=&AGENCY=FDA

We value our health and health freedom choices, and we have written letters investing 39 cent stamps that carries more weight than an unpaid electronic submission. And we are asking everyone to do both Contact their congressman or woman and the FDA. We provide the FDA address at: **5630 Fishers Lane, rm 1061, Rockville, MD 20852**

Thank you,
David Tippie - Director
