Subject: Docket # 2007P-0085

To Whom It May Concern at the FDA

re: 2007P-0085: Adopt Regulations of General Applicability to All Food Standards that Would Permit, Within Stated Boundaries, Deviations from the Requirements of the Individual Food Standards of Identity.

This concerned citizen requests that the FDA deny this petition, whose effect would be to further degrade the quality of food consumed by a nation already plagued by poor nutritional choices. I count on the FDA to help ensure quality and clarity in our food preparation and labeling. This is a petition that seeks to obfuscate and degrade. I urge you to deny it.

Sincerely,
