

MEMORANDUM OF TELEPHONE CONVERSATION

March 16, 2005

Between: Lyn O'Brien Nabors
Executive Vice President
Calorie Control Council

and

Loretta Carey
Food Labeling and Standards Staff
Office of Nutritional Products, Labeling, and Dietary Supplements (ONPLDS)

Subject: Petition to permit the removal of all or part of the fat from
standardized food (Docket No. 95P-0078)

I called Ms. Nabors at Calorie Control Council to discuss Calorie Control Council's petition of March 8, 1995 (Docket No. 95P-0078) requesting FDA to amend the food labeling regulations to permit the removal of all or part of the fat from standardized foods even when fat is specifically required by the standard.

I asked Ms. Nabors if Calorie Control Council was still interested in a response to the petition. Ms. Nabors stated that FDA could withdraw the petition because the petition that Calorie Control Council submitted in April of 1996 (Docket No. 96P-0143/CP 1) covers the same request that was submitted in this petition (Docket No. 95P-0078). Ms. Nabors said that I should use this memorandum of telephone conversation to facilitate such withdrawal. I informed Ms. Nabors that I would be happy to do so.

Loretta Carey
