Re: 21 U.S.C. Section 343(r)(6), Notification of Statements on Dietary Supplements

Dear Sir/Madam:

I hereby notify the Food and Drug Administration ("FDA") of the use of statements of nutritional support in the labeling of Celadrin® & MSM Caps, a dietary supplement.

Statements being made in the labeling of Celadrin® & MSM Caps:

- (1). Celadrin® is a proprietary, all-natural fatty acid complex that has been shown to provide support for healthy joints. As demonstrated in clinical and non-clinical studies, Celadrin® supports healthy joint mobility, as well as overall joint function without dangerous side effects. Non-clinical scientific studies have shown that Celadrin® is safe, well absorbed, and easily utilized by the body. NOW® Celadrin® has the added benefit of MSM, a biologically active source of sulfur.

To the best of my knowledge, and based upon information and belief present at the time of the executing of this notice, I certify that the above information is accurate and complete. NOW Foods possesses substantiation that the statements are truthful and not misleading.

Michael Lelah, Ph.D.
