DEC 23 2005

Dear Sir or Madam:

In accordance with the requirements of Section 403(r)(6) of the Federal Food, Drug, and Cosmetic Act, this letter (original and two copies) serves as notification that Natrol, Inc., located at 21411 Prairie Street, Chatsworth, CA, 91311, proposes to make statements of nutritional support for the dietary supplement product(s) listed below under the Prolab® brand.

Product Name	Statement(s) of Nutritional Support	Anchor Ingredient(s)
Enhanced CLA™	Delivers 533 mg of CLA (Conjugated Linoleic Acid) in one softgel. Contains Flax Seed Oil, which may help maintain cholesterol levels that are already within a normal range.	Sunflower/Safflower Oil, Flax Seed Oil
Amino 2000™	A potent amino acid formula containing 2000 mg of pure, naturally occurring L-form amino acids per tablet scientifically proportioned to meet your nutritional needs. Athletes require greater protein intakes compared to sedentary individuals in order to remain in positive nitrogen balance. Positive nitrogen balance is necessary in order to promote protein accretion and muscle growth. Amino 2000 derives its protein source from pancreatic digest of whey, a high quality protein with a high protein efficiency ratio (P.E.R.) and a bioavailability rating higher than that of egg protein. Combine Amino 2000 with a nutritiously complete diet and an intense training program for best results.	Whey Protein Concentrate
Caffeine 200mg	Provides the energizing effects of caffeine without added sugar or calories to support your training needs without compromising your dietary goals.	Caffeine

Product Name	Statement(s) of Nutritional Support	Anchor Ingredient(s)
Glucosamine Chondroitin MSM	Helps promote and maintain healthy joints and connective tissue. MSM (Methyl Sulfonyl Methane) is a natural source of sulfur, which is essential for the healthy function and structure of joints. Chondroitin helps promote lubricating fluids for your joints. Glucosamine aids in the rebuilding and repairing of cartilage in addition to being a component for the development of strong connective tissue.	Glucosamine HCl, Chondroitin Sulfate, Methyl Sulfonyl Methane
Therma Pro Ephedra Free	Thermogenic fat burner. Improve performance. Supports metabolic rate. The key to this formula is the patented ingredient ForsLean®, which like adrenaline, promotes the release of cAMP resulting in more fat mobilization for a leaner body. We also added Advantra Z® for its ability to support metabolic rate when combined with caffeine. By supporting metabolic rate, your body will burn more fat faster. Combined with a healthy calorie reduction and exercise program. Therma Pro Ephedra Free will get you leaner and harder while giving you more energy.	Coleus Forskohlii Extract (Root), Citrus Aurantium Extract (Fruit), Caffeine
Naturally Lean Complex	Meal Supplement For A Lean Body. Designed to supply a generous amount of the Daily Value of B vitamins (to help maintain energy levels needed to sustain a scheduled exercise program) as well as the antioxidant vitamins A, C and E. Naturally Lean Complex was formulated to provide the necessary levels and balance of two key minerals—calcium and phosphorous—well documented as necessary for the building of strong bones. Promotes a lean-mass building (not a fat accumulating) environment. Supports cardiovascular health with natural fiber. Provides essential fats. Supplies protein to help maintain lean muscle mass. Provides complex carbohydrates to supply energy needed for a scheduled exercise program. Delivers a steady influx of nutrients that are critical to building and maintaining a lean, healthy body.	Barley, Casein, Whey Protein Concentrate, Hydrolyzed Oat Flour, Vitamins and Minerals (Calcium, Phosphorus, Potassium, Chloride, Magnesium, Vitamin C, Niacin, Vitamin E, Iron, Zinc, Manganese, Vitamin B6, Riboflavin, Thiamin, Copper, Vitamin A, Beta-Carotene, Folic Acid, Biotin, Chromium, Vitamin K, Vitamin B12, Vitamin D), Conjugated Linoleic Acid, Sunflower Oil, Whey Protein Isolate, Calcium Caseinate, Gum Arabic, L-Glutamine, Brown Rice Powder, Guar Gum, Xanthan Gum, Carrageenan, Mono- and Diglycerides

Notification for Statements of "Nutritional Support" on Dietary Supplements

Page 3 of 3

Product Name	Statement(s) of Nutritional Support	Anchor Ingredient(s)
Whey Protein Isolate Powder	Maximizes positive nitrogen balance. Supports growth & muscular development. Quality whey proteins have been associated with many healthful benefits including weight management when used with a reduced calorie and exercise program, and positive nitrogen balance, which is important to any hard training athlete.	Whey Isolate (90% Protein)

Please be advised that the product(s) prominently displays the following statement:
"These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent disease."

Sincerely,
NATROL, INC.
