NOTIFICATION OF  
STATEMENT OF NUTRITIONAL SUPPORT

Pursuant to section 6 of the Dietary Supplement Health and Education Act of 1994, 21 U.S.C. § 343 (r) (6), this is to notify FDA that our company is including in the labeling of its PMS Escape™ Dietary Supplement statements to the effect that the product contains a special formulation of carbohydrates specifically designed to increase serotonin levels and that certain PMS disturbances are, at least in part, the result of deficiencies in serotonin – a substance that occurs naturally in the body, which is believed to help control mood, appetite and the ability to concentrate.

Sincerely,

Lewis D. Lepene
