RE: Notification of Nutritional Support Statements

P.O. BOX 1806

Dear Sir or Madam:

SANTA CRUZ

CALIFORNIA

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Hot Flash™, dietary supplement. Horizon® Nutraceuticals is the manufacturer of Hot Flash.

Statements being made in the labeling of Hot Flash:

9 5 0 6 1

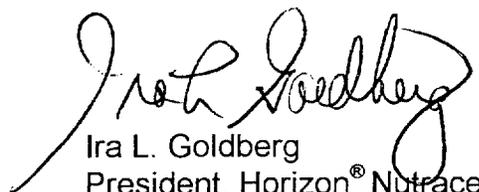

(1) Helps reduce hot flash frequency

TELEPHONE:

(2) Horizon's Hot Flash formula may help minimize the body's often dramatic response to declining levels of estrogen. After menopause the pituitary gland releases increased levels of luteinizing hormone (LH). Researchers have found an association between pulses of LH secretion and the onset of hot flashes. Hot Flash formula includes optimal amounts of phytoestrogens, which may reduce the frequency of hot flashes and lessen the effects of luteinizing hormone.

408 461-6326

To the best of my knowledge, and based upon information and belief present at the time of the executing of this notice, I certify that the above information is accurate and complete. Horizon Nutraceuticals possesses substantiation that the statements are truthful and not misleading.

Ira L. Goldberg
President, Horizon® Nutraceuticals
