Re: Natrol, Inc.

Dear Sir or Madam:

I am the General Counsel of Natrol, Inc., Chatsworth, California, a manufacturer of dietary supplement products (hereafter "Natrol").

On behalf of Natrol, and pursuant to the requirement of Section 6 of the Dietary Supplement Health and Education Act of 1994, 21 U.S.C. §343 (c) (6), your Agency is hereby notified that Natrol proposes to make statements of "nutritional support", as described in 21 U.S.C. §343(1)(6)(a), for its dietary supplements as follows:

(1) Lycopene: Natrol's LYC-O-MATO™ is an amazing phytonutrient and subject of recent research revealing its antioxidant properties. Lycopene has been identified as the key compound found in rich, red tomatoes. And although a diet high in fruits and vegetables is recommended optimum health, it can be difficult to obtain the appropriate daily servings. By isolating Lycopene into easy to swallow tablets NATROL now offers a solution to help supplement your diets with this health-promoting compound.

Please be advised that the label of each of the above dietary supplement products includes the statement that "The FDA has not evaluated these statements. This product is not intended to diagnose, treat, cure or prevent disease."

If you have any questions regarding the foregoing, do not hesitate to contact the undersigned at your convenience.

Sincerely,

NATROL, INC.

Eve Mendoza
General Counsel
