RE: Marketing of two dietary supplements bearing nutritional support statements

Gentlemen:

Name and address of the manufacturer: West Coast Labs, 116 East Alondra Blvd.
Gardena, CA 90248.

1) The text of the statement for the product containing Pancreatin:

“Without proper digestion our bodies do not receive nutrients from our food. Enzymes support the breakdown of food, making these nutrients bioavailable to our bodies. By taking our Pancrea-Lind tablets, you support your body’s natural metabolism process for better utilization of fats, carbohydrates and protein.”

2) The text of the statement for the product containing Betaine Hydrochloride with Pepsin:

“Without proper digestion our bodies do not receive nutrients from our food. Enzymes support the breakdown of food, making these nutrients bioavailable to our bodies. By taking our Betaine Hydrochloride with Pepsin tablets, you support your body’s natural metabolism process for better utilization of protein.”

The information contained in these notices is accurate and substantiation for the statements is, to the best of my knowledge, truthful and not misleading.

Sincerely,

Don McFarland, President
Lindberg Nutrition
