This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM WE OBSERVED:

OBSERVATION 1

You do not maintain practices that will protect against cross contamination when people move between poultry houses.

Specifically, your firm does not maintain practices to protect against cross contamination when employees move between poultry houses located on the same farm.

OBSERVATION 2

Potential harborage for pests in and outside your poultry house have not been eliminated by removing debris and vegetation outside the poultry house.

Specifically, during the inspection at your facility on 11/3/10, the following conditions were observed:

- excess feed troughs were observed stored near House (b) (4) and House (b) (4)
- multiple exhaust fans were observed with missing fan louvers.
- avian access points were observed in the eaves of Houses (b) (4)

OBSERVATION 3

The presence of flies is not monitored by appropriate monitoring methods.

Specifically, your firm did not maintain fly monitoring records from July thru September.
