MANUFACTURING/DESIGN OPERATIONS

Farina Farms is a laying egg facility. All of the eggs produced at the firm are sent to (b) (4) located at (b) (4) (b) (4) is an egg breaker facility. The eggs are collected from all of the houses by a common belt. The eggs are packaged in plastic crates and transported to the breaking facility the same day. The firm has a cooler where the eggs are stored while waiting to be transported. Mr. Roger L. Sager provided us with a letter from (b) (4) (b) (4) stating that (b) (4) buys the eggs for breaking purposes only (Exhibit 1). He also provided a letter stating that Farina Farms, Inc. produces eggs for a breaker facility only (Exhibit 2). Together with these documents Mr. Roger L. Sager provided us with an affidavit with the above details (See Attached Affidavit).

The Egg rules that apply to this facility are registration and refrigeration.

The firm has a cooler unit where the eggs are stored while waiting to be transported. The eggs only stay in the facility for (b) (4) hours. The firm keeps track of the temperature of the cooler; the records were reviewed and no deviations were noted.

The firm is registered per the Egg Rule.

REFUSALS

No refusals were encountered during the current inspection.
