This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM WE OBSERVED:

OBSERVATION 1

You did not maintain records documenting compliance with biosecurity measures.

Specifically, your "Salmonella Enteritidis Prevention Plan" for Jay Egg, last updated 04/08/2011, states "Any company equipment commonly used between layer houses shall be cleaned and disinfected before entering different layer house" and "Any cleaning and disinfecting procedure shall be documented on a log sheet.

You do not document cleaning and disinfection of the skid steer loader used for manure removal across the North and South chicken houses.

OBSERVATION 2

Stray animals are not prevented from entering poultry houses.

Specifically, a live pigeon had made it through the bird netting used on the eaves of the North House, it was observed at the northeast corner of the chicken house. The netting provided only partial coverage of eve leaving an opening approximately one inch extending the length of the house.
