**SUMMARY**

This initial targeted egg safety inspection of a shell egg producer was conducted in accordance with FDA PHI-DO FY 11 work plan per “FY 11 Inspection of Egg Farms for Monitoring Compliance with Egg Safety Rule” amended February 8, 2011, DFPG Assignment # 11-04, ORA Concurrence # 2011012601, FACTS # 1258067 and OPID 5509528.

On 1 JUNE 2011, LT Mastalski and I (Brandi L. Garbutt) presented our credentials and issued an FDA-482, Notice of Inspection, to Mr. Jason N. Oney, Site Manager, and most responsible individual present at the initiation of the current inspection.

This farm has been in operation for approximately 12 years. Production hours are from [b4] to [b4]. The firm employs [b4] individuals.

There are no previous FDA inspections.

The current inspection revealed that Hillandale-Gettsburg Site 3 produces shell eggs primarily for the table market. This inspection included a walkthrough and record review. The farm operates [b4] egg laying poultry houses.

Rodent index logs and flock testing results were reviewed; no significant deviations were observed.

No refusals were encountered.
