This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM WE OBSERVED:

OBSERVATION 1

Environmental testing for SE, using approved methods, was not done in a poultry house when any group of laying hens constituting the flock was 40 to 45 weeks of age.

Specifically, you did not perform environmental testing for SE for the following groups of birds at 40 to 45 weeks of age:

- a) Flock 542 housed within unit 4 (formerly unit 3) had environmental testing for SE performed on 12/6/10 when the birds were 51 weeks of age.
- b) Flock 545 housed within unit 3 (formerly unit 4) are 47 weeks of age and have not had environmental testing for SE performed.

OBSERVATION 2

Your pullet environment is not tested for SE when pullets are 14 to 16 weeks of age.

Specifically, the pullets from flock 545 housed within unit 3 did not have environmental testing performed at 14-16 weeks of age. These pullets were tested at 17 weeks of age.
