## Notice of a 403(r)(6) Statement - Multiple Statements and Single Ingredient

Dr. Yetley,

This letter serves notice that M.K. Health Food Distributors, Inc., dba Nature's Life, located at 7180 Lampson Avenue, Garden Grove, California, 92841, U.S.A. is marketing a dietary supplement whose label bears 403(r)(6) statements as follows:

### Maintains Healthy Intestinal Flora

Regular consumption of probiotics is the best way to maintain healthy intestinal flora.

Probiotics support healthy digestion and can be especially helpful for travelers.

in their digestive system, especially for those taking antibiotics or consuming diets high in processed foods.

This product is an excellent choice for those who want to add to or maintain an optimal level of friendly bacteria.

In addition to the actual beneficial organisms, this culture contains all of the acidophilus' nutritionally valuable metabolic by-products such as natural antibiotics, antibodies, vitamins, mineral metabolites and enzymes. The organisms and their by-products will retain much of their health benefits well beyond the "Best Before" date.

Acidophilus Culture is the dietary ingredient that is the subject of these statements and Milk-Free Acidophilus is the name of the dietary supplement that is the subject of these statements.

Regards & Health,

A handwritten signature in black ink, appearing to read "Karl Riedel".
