Dear Sir:

I urge you to
prohibit the use of
factory farmed animals for
human food. This
causes intolerable
animal cruelty, and
using for food animals
too sick to even stand

threatens human health.
I am aware that our
meat industry has been
deregulated and two
meat inspectors refuse
to inspect meat and one
of them is trying to get
his wife to stop eating
meat. Since anything
is deregulated it is
lost. We need a new
FDA, not a NWO. I
do not eat meat beca
of its unhealthy and
cruel (factory farming)
methods. Of course
I don't expect humane
animal care when
people themselves are
treated as commodities.

98P-0151

C3184

... and lost the
money which should go
for infrastructure and
job creation. Every
country is bankrupt
because of the business
policies of the I M F.
Well, isn't that what
our controlled England
wants - to reduce
population?

For humane treatment
Sharon Del Principe

I'm pleased to support the mission of The Navigators. In our crowded and busy world, there is little time to seek out the secluded treasures that give testimony to a divine presence in the world. I have been privileged to visit what I believe to be holy places. **The Mountain Chapel** is, in effect, a prayer in paint—a very personal response to the glories of God's natural world.
