Dear FDA:

This is regarding docket number 98P-0151/CP1

I'm contacting you on behalf of several thousand humanitarians (signatures available upon request), urging you to prohibit the slaughter of downed animals.

We enthusiastically join the Farm Sanctuary campaign. Many of us have witnessed maggots infested injured animals at the stockyards (near death) totally unfit for human consumption, yet they were allowed to enter the human food chain.

The suffering is horrendous, no "civilized" society should tolerate such horrific, inhumane treatment of living creatures.

The downed animals are only a small percentage of

slaughtered animals, therefore the profiteers should be willing to accept the loss. Specially when you consider foodborne illnesses that are direct result of contaminated meat, profit and greed.

We urge you to grant petition 98P-0151/CP1 to prohibit the slaughter, prohibit the marketing of downed animals.

Sincerely,

Ava Barcelona
William D. Goodkind
