7500 Standish Place HFV -228
Rockville, MD 20855

Dear Dr. Bentz:

I am a dog, cat, and horse owner and I am extremely concerned about removal from sale of supplements designed for animals. I successfully use supplements that are designed by veterinarians or others knowledgeable in animal physiology, and that are appropriate in doses and chemistry for my animals.

I believe that if these supplements are made illegal, research on supplements for companion and working animals will be stifled. The health and well being of our animals depends on the on going research for helpful but non-patentable substances.

Please try to avoid a "New Prohibition" of substances that we have used safely and successfully for many years. Please continue your work to ensure quality control and truth in labeling without removing effective supplementns made by reputable companies.

Thank you for your time and attention.

Sincerely yours,

Suzi Kimzey Parsons
