RE: Notification of Nutritional Support Statements

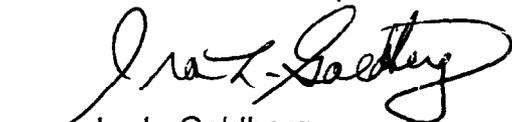

Dear Sir or Madam:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Policosanol with Co Q10, a dietary supplement. Source Naturals® is the manufacturer Policosanol with Co Q10.

Statements being made in the labeling of Policosanol with Co Q10:

- (1) Animal and in-vitro research has shown that these compounds may support the cardiovascular system and inhibit lipid peroxidation, and support immune system macrophage activity.
- (2) A blend of compounds isolated from natural plant waxes.
- (3) Contains several long chain fatty alcohols, including octacosanol, hexacosanol, and triacontanol.
- (4) Coenzyme Q10 has been added to promote adequate levels of this important nutrient.
- (5) Research indicates that CoQ10 levels in the body may be lowered by compounds that work on the same metabolic pathway as policosanol.

To the best of my knowledge, and based upon information and belief present at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals possesses substantiation that the statements are truthful and not misleading.

Ira L. Goldberg
President, Source Naturals®
