PatentHEALTH, LLC a distributor of the dietary supplement which follows, with its corporate offices located at 5080 Aultman Ave., North Canton, OH 44720, is **updating** its list of structure function claims for its product FLUIDJOINT®, whose main ingredient is Stolle Milk Protein Concentrate. The following list is comprised of claims currently being used for the product.

1. FLUIDJOINT is an innovative new dietary supplement that has been shown to be effective through multiple clinical trials to promote healthy joint function.
2. FLUIDJOINT has been shown to be highly effective in supporting improved mobility and range of motion.
3. FLUIDJOINT works by helping to restore the protective barrier surrounding your joints and supporting the body's natural defenses against joint discomfort. This natural support helps joints feel better, move with ease and improves overall joint health.
4. FLUIDJOINT starts working immediately and some users report benefits in the first 10 days of use.
5. During FLUIDJOINT's clinical trial, participants experienced significant improvement in joint function in 14 days.
6. In a recent clinical trial, FLUIDJOINT was tested for safety and effectiveness, no serious adverse side effects were reported.
7. A continuous daily support of the concentrated microproteins in FLUIDJOINT is necessary to maintain its positive benefit.
8. Clinical trials have shown that FLUIDJOINT is as safe as the milk you drink everyday.

9. Each individual is unique, however, once you have achieved the desired effect from FLUIDJOINT, some consumer feedback suggests that one tablet in the morning and one in the evening can be sufficient.
10. These concentrated proteins support your body's natural process for maintaining healthy joints.
11. Continued use of FLUIDJOINT enhances joint function for everyday activities.
12. FLUIDJOINT will support your active lifestyle and allow you to live life to the fullest.
13. Active ingredient shown to be safe through more than 40 years of research and the tracking of 800 case histories.
14. Clinically shown to be effective in reducing the temporary joint dysfunction associated with activities of daily living.
15. The clinical results show the remarkable health benefits are substantial.

I certify that these statements are complete and accurate and their truthfulness has been substantiated.
