**Aboca:  
 Growing Herbs for Health**

Since 1978, Aboca has grown herbs using organic farming processes. Today Aboca's farmlands occupy over 1700 acres, all certified organic in accordance with EU Directive 2082/91. Our mission is to provide the safest and most effective herbal supplements, by combining the ancient tradition of herbal remedies with the most sophisticated scientific research and production technology. Aboca is committed, from seed development to final packaging, to making the world's most natural herbal products for health needs, without the use of any chemical excipients or additives.

**Whole Phytocomplex Concentrate**

Freeze-Dried  
 Extract

Micronized Plant  
 Powder

300 mg per capsule

Net Wt. 1.41 oz (40.1 g) 45 Capsules

Saw Palmetto (*Serenoa repens*) supports healthy prostate function.

This plant is carefully selected by Aboca adhering to the strictest protocols. Systematic quality controls implemented throughout the entire production process and analytical testing performed on raw material and finished product validate the safety and effectiveness of this herbal supplement.

Though total liposterolic fraction is considered the main active ingredient of Saw Palmetto, many other plant components contribute to the herb's efficacy. That is why Aboca has developed the exclusive W.P.C.

W.P.C. (Whole Phytocomplex Concentrate) is a combination of the freeze-dried extract with micronized powder from the same portion of the plant, to assure maximum bioavailability optimum concentration of active principle and the full-spectrum of constituents.

The result is a product with uniform content of total liposterolic fraction without the use of excipients, colorings, flavorings, or preservatives. GMO free.
