Lawrence Tabak,
President

Important Information You Should Know About Slimtrac™. Please Read%%Firstname%:

Dear [Firstname],

Here's an exciting opportunity to lose weight a whole new way, with all-natural Slimtrac™.

The ingredients in Slimtrac™ contain no drugs. No chemicals. No ephedra. And no stimulants!

If you want to lose pounds and inches - for real - safely and naturally, read this story. . .

The San Bushmen are the oldest human inhabitants in Africa. When they leave to go on two-day hunting expeditions in the parched Kalahari desert, they don't eat. The reason? They prefer to eat together. So they keep all the food they catch and cook it with their community upon returning.

Two days without eating means they have to deal with severe hunger pangs. How do they do it? The answer is simple. They eat the stem of a special cactus plant. The official name is Hoodia

Gordinii. But they call it Khoba!

This amazing plant grows to six feet - taller than they are - and it squashes their urge to eat so effectively, they've been using it for thousands of years.

In fact, the scorched desert they live in has led them to become expert botanists. The San Bushmen can readily identify over three hundred species of plant. And this one, as it turns out, may be their most important discovery ever!

Proper Dosage

Take two capsules a day 30 minutes before your meal. Combined with sensible diet and regular exercise, see how it chokes off your appetite - literally stops it dead in its tracks.

The result? You'll start to drop pounds and inches. Quickly. Moreover, you'll see it first in your clothes sizes. Then your friends will comment.

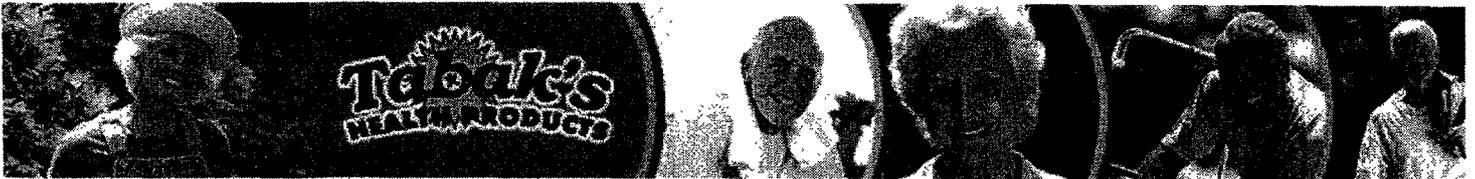

Friendly, knowledgeable customer service is a top priority at Tabak's Health Products.

You can tell them about Slimtrac™, or you can keep the San Bushmen's discovery your very own secret. It's up to you. Either way, you'll be slimmer and feel happier within yourself.

If ancient San Bushmen can use this natural substance to stave off hunger pangs for two full days while hunting, you too, can use it to lose weight!

Please do get started right now - you'll be glad you did.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease. Consult with your doctor before starting any weight loss program. Slimtrac™ should be used as part of your overall weight-loss plan, which includes a sensible diet and exercise plan. Follow label directions carefully.

Want to be thinner?

Ancient Bushman Tribe in Southern Africa Discover All-Natural Substance That Causes You to Lose Weight

Listen, if you want to lose pounds and inches - for real - safely and naturally, you have GOT to read this fascinating story. . .

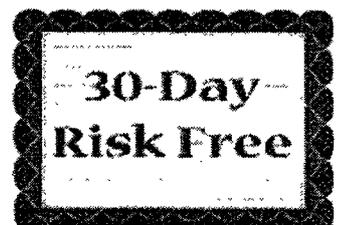

The San Bushmen are oldest human inhabitants in Africa. They have lived in the sub-continent for the last 20,000 years - dating back to the stone age! And do you know what is most upsetting? They suffered greatly at the hand of the cattle-owning groups. They preyed on the cattle, having no concept of animal ownership, and they were hunted virtually to extinction by both white and black colonists.

Less than 100,000 remain alive today.

The San Bushmen are natural-born hunters. They take to hunting with bow and arrow like fish take to water.

And you won't believe this: They make no pottery. Rather, they use ostrich eggshells for storing and holding liquids. And they don't live in huts either. They survive in the open or in crude shelters made of twigs. What does all this have to do with you losing weight, you ask? Simply this: When they leave to go on two-day hunting expeditions in the parched Kalahari desert, they don't eat. The reason? They prefer to eat together. So they keep all the food they catch and cook it with their community upon returning.

Two days without eating means they have to deal

YES! I want to slim down and enjoy the figure (and waistline) I've always dreamed about. Please rush my **FREE 30-DAY TRIAL** of Slimtrac™ capsules.

If I don't want Slimtrac™ for any reason, I'll return the unused portion or empty container and owe nothing - no questions asked. But if I decide to keep it, I'll gladly pay the bill of only \$29.97 plus shipping and continue to receive a fresh supply each month with a bill. I may cancel future shipments at any time.

the San Bushmen are fairly thin folk and food is often scarce due to the desert climate. For the life of them they can't figure out why anyone would want to be thinner?!?

Anyway, what's important for you to know is that we've created a brand new weight-loss supplement, Slimtrac™, that contains Hoodia Gordinii plant extract as the primary ingredient. And... we're so blazingly confident it will help you lose pounds and inches... that we'll send it to you to try for a full month completely free of risk. Unlike our competitors, that means you don't send us one penny up front.

No. I'm not joking.

Just return your enclosed Free Trial Certificate - without any money. We'll rush you a 30-day supply of Slimtrac™ right away via first class mail. When you receive it, put it to the test. Take two capsules a day, combined with sensible diet and regular exercise, and see how it chokes off your appetite - literally stops it dead in its tracks.

The result? You'll start to drop pounds and inches. Quickly. Moreover, you'll see it first in your clothes' sizes. Then your friends will comment.

You can tell them about Slimtrac™, or you can keep the San Bushmen's discovery your very own secret. It's up to you. Either way, you'll be slimmer and feel happier within yourself.

After 30-days, if you're satisfied with Slimtrac™ - as no doubt you will be - pay the bill that comes with it. If not? Just return the empty or semi-empty container. Your bill will be cancelled. You won't owe us or pay us a cent. And that will be that.

Don't wait. There's no risk at all in trying it. Mail the enclosed 30-day Free Trial Certificate and Slimtrac™ will be on it's way to you. Remember, don't send any money now because we are taking all the risk.

Sincerely,

Leah Keyes, for Slimtrac™

P.S. If ancient San Bushmen can use this natural substance to stave off hunger pangs for two full days while hunting, you too, can use it to lose weight!

P.P.S. Are you still skeptical? I don't blame you. But just ask yourself these two simple questions? Why are they willing to send my Slimtrac™ before I pay? Why are they willing to go out on a limb and take all the risk? The answer of course is that Slimtrac™ really works. Mail your Free Trial Certificate today.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease. Consult with your doctor before starting any weight loss program. Slimtrac™ should be used as part of your overall weight-loss plan, which includes a sensible diet and exercise plan. Follow label directions carefully.
