

PHARMAVITE

December 5, 1995

David A. Kessler, M.D.
Commissioner of Food and Drugs
Food and Drug Administration
5600 Fishers Lane
Rockville, MD 20857

Dear Dr. Kessler:

Pursuant to Section 6 of the Dietary Supplement Health and Education Act of 1994, 21 U.S.C. §403(r)(6), we are submitting notification of use of a statement covered by the above Section. The statement is:

Bilberry extract was first studied after British pilots in WWII consumed Bilberry fruit to enhance their night vision. Subsequent scientific studies have documented Bilberry fruit to contain antioxidant constituents called anthocyanosides, which help to strengthen microcirculation, which is important to healthy vision.

Sincerely,

David Kropp
Manager, Regulatory Affairs
